Mr. and Mrs. Fred J. Henderson
and Mr. and Mrs. E. H. Wilmot re-
turned from Calgary after attending
the former's nephew's funeral. Mr.
Fred Wilmot a returned soldier who
accidentally was drowned while bath-
ing at Banff.

Mrs. R. H. Rogers Pres. Sec. of the
Women's Institute, of Alberta, is
going to be the guest of Mrs. Ludke
on Sunday next, and will go on to
Purple Springs and Coaldale, return-
ing to Bow Island to give an address
the date of which, will be given later
on the Chautauqua platform.

Mr. LaMarsh left Tuesday for
Calgary on a business trip and before
returning he will visit Creston B. C.

The picnic of the Women's Institute
was held at Mitchell's Grove last Sat-
urday. About 20 grown-ups and
children celebrated Peace by hav-
ing tea under the trees, and heartily
enjoying the delicious Ice Cream serv-
ed by Mrs. and Miss Mitchell, every-
one had a nice sociable time.

Constable Bradner accompanied by
Mr. Hutchison motored to Taber last
Sunday.

Bow Island was the feature of a
little excitement last Monday evening
when a number of children marched
through the streets evidently put-
ting a finishing touch to Saturday's
Celebration the procession looked fine
they were carrying a dummy repes-
enting Kaiser Bill they all seemed to
be enjoying the fun.

Mr. and Mrs. Reams and family are
motoring to Medicine Hat Friday on
an extended visit.

Miss G. Johnson accompanied by
Miss V. Sevaland motored to
Sevaland farm to spend the week end,
and enjoyed being at the dance Sat-
urday night at Nemiskam School House
there was a large crowd, all reported
having a good time.

Mr. Ronald Bruce went to Medicine
Hat last Friday.

Master Bert Bruce is a visitor in
town.

Dr. Munroe's friends are pleased to
see him back in Bow Island again,
the report is that the Doctor is much
improved in health.

Mrs. Harris who lives about 4 miles
east of Bow Island is not improving
very much, she has been in ill health
for some time, we all hope she will
soon be well and around again.

WHITLA BASE BALL.

From our own Correspondent
Whitla Base Ball team beat Seven
Persons 21 to 9, a dance was held in
the Ensign Hall, music was supplied
by Blick's Orchestra from Bow Island
everyone enjoying themselves
immensely.

Mrs. Fuller is on an extended visit
to Lethbridge.

SASKATCHEWAN

In all there are about eight districts
in Sask. that the farmers say the
crops were never better, and rain in
abundance.

GREAT WAR VETERANS' ASSOCIATION BOW ISLAND BRANCH

"Pro amor Rex et Patria."

G. W. V. A. DANCE

A most enjoyable dance
was held in the L.O.O.F. Hall
Bow Island, on Monday even-
ing last, to celebrate the
opening of the Bow Island
Branch of the G. W. V. A.
The floor was in excellent
shape, and the large company
assembled soon showed that
in spite of the hot weather
Bliss's Jazz Band made dan-
cing easy. The Veterans cordi-
ally thank those citizens who
kindly assisted by the loan
and gift of bunting for the
decoration of the hall, and of
ice and utensils for the re-
freshment department.

Comrades Jones and Kinley
were untiring in their efforts
to irrigate the parched.

A Handy Tractor

For all kinds of field work, this Case 10-18 is easily adaptable. It will pull
two plows easily. It will pull an 8-foot binder, a 22-shoe grain drill, a 5-section
spike tooth harrow, an 8-foot double action disc harrow, or a large manure spreader.

It is equally adaptable for belt work.
It will readily drive a Case 2028 thrasher,
fully equipped; a No. 12 Case silo filler, bal-
ing press, feed mill, small corn husker or
sheller.

It brings increased earning power.
This tractor weighs little more than a
team of horses. It is low and compact, and
turns in a small area.

Before you decide which tractor you
want, investigate this Case 10-18 and then
you will be able to make comparisons.

Ulster Leader's Speech Is Severely Criticized

London.—Sir Edward Carson's speech has brought the Ulster leader under the lash of the newspapers of all parties, primarily on account of his references to the United States, which are criticized as tactless and calculated to breed bad feeling between the two nations, and, secondly, because he reiterated his old threat to call out the Ulster volunteers to resist any attempt to place the Home Rule Act in operation.

The Attorney-General, Sir Gordon Hewart, announced in the House of Commons that there were no grounds for setting the law in motion against Sir Edward because of his threat to call out the Ulster volunteers against Home Rule.

By a vote of 217 to 73, the House rejected a motion by J. B. Clynne, Labor member, urging the government to prosecute Sir Edward Carson for his speech as incitement to violence and breach of the peace.

The debate turned on the legal point, in which, the Attorney-General said, he had the assistance of the Solicitor-General. But almost all the speakers without distinction of party condemned the Carson speech, Sir Donald Macdon, Liberal, appealed to the government to try to regain the moral authority of parliament by condemning in the language the Irish Unionist leader used.

Andrew Bonar Law, the government spokesman, contended that the government was bound to be guided by its legal advisers, though nothing could be more painful to him. If the government had been advised that the law was broken he would have insisted on action being taken or would have resigned. The whole thing was a very unfortunate affair, said Mr. Bonar Law.

The Labor organizations are not slow to point out how such incitement to "direct action" has improved upon in the industrial field for securing political ends. The Liberal pro-Irish papers would have to point out that in point of tactics there is no difference between "King De Valera" and "King Carson."

Labor Conference

Called At Ottawa
Premiers of Provinces, Labor Leaders and Employers to Be Invited

Ottawa.—It was decided at a meeting of the privy council to call a national industrial conference for September 11. To this meeting all provincial premiers or accredited representatives will come to talk over with representatives of the labor unions, employers and employees just being called in Canada industry. Great efforts will be put forth to secure the hearty cooperation in this conference of all elements of labor and all organizations of employers.

Set Price Of U. S. Wheat

Wheat and Wheat Flour Imports and Exports Under Prescribed Limitations

Washington.—President Wilson has signed an executive order increasing the guaranteed price of the 1919 wheat crop to \$2.30 per bushel at Galveston and New Orleans.

At the same time, a presidential proclamation was issued declaring that in order "to protect the United States against undue enhancement of its liability" under the law guaranteeing wheat prices, that on and after July 31 no wheat or wheat flour be imported or exported from the United States except within prescribed limitations to be prescribed by the wheat administrator.

Radical Leaders Leave Hungary

Vienna.—There is a crisis in the Hungarian soviet. General Boehm, commander of the army, has been imprisoned. Reports have been circulated that his body is being kept in a sanatorium. Strumfeld, second in command, is reported to have fled. Statements that Berlin, the soviet leader, had been invited to a conference by the allies has given rise to reports that he has accepted this advantage as a means of escape from Hungary without the intention of returning. It is deemed, however, that he has left Hungary thus far, or even departed from the capital.

Minimum Price Of 1919 Crop

Winnipeg.—An afternoon paper prints the following from its Ottawa correspondent:

Confirmation was given by Sir Thomas White of the report that a minimum price for wheat will be guaranteed in all probability by the government. What this price is to be Sir Thomas would not say. The intention is to give commercial and financial stability to the marketing of the crop, in view of the world-wide conditions, the unique situation created by the United States fixed price, and the uncertainty as to how the world demand would react to the queer conditions now obtaining. The fixing of a price gives a guarantee which will facilitate the placing of the crop, it is hoped.

Hot In India

Troops Campaigning In India Suffer Terribly From Heat and Cholera

Peshavar, India.—The continued heat is appalling, but everything is being done to mitigate the sufferings of the troops. Ice plants have been fitted up at Landiotal and Daska, and an attempt is being made to supply ice to each British soldier. Special huts have been equipped in the Khyber district for treatment of heat cases. The violent epidemic of cholera, which broke out in June, lasted nearly three weeks. There were 1,663 cases and 566 deaths, principally among the camp followers. Six British officers and 15 men also died, but the disease is now practically stamped out.

A special train now daily carries troops for short spells to the Murree Hills. The troops are now better housed and fed than in any previous campaign. The firm steadiness of the British troops in facing the heat deserves the utmost admiration.

Spain Placed On Low Level

Neutrality Belittled Here In Eyes Of Other Powers

Madrid.—The neutrality which Spain maintained during the war has been belittled here in the eyes of the other powers, declared Senor Pere Cabrer, former ambassador to France, in a speech in the senate, during the debate on the reply to the message from the crown, delivered at the recent reopening of the Cortes. The government's policy had been set forth entirely too vaguely, he insisted.

The senator demanded that if possible Spain should ally herself with the allied and associated nations, saying that Spain could not remain isolated from the rest of Europe. "If we would raise Spain from the low level upon which her neutrality has placed her," he added, "it is indispensable that her signature be joined to those of Great Britain and the United States on the pact guaranteeing security to France."

Rioting in Stettin
Copenhagen.—A general strike, accompanied by rioting, has started at Stettin, capital of the province of Pomerania, Prussia, according to advices received from German sources.

The strike involves all trades, including harbor transport, water and electricity. The object of the strike is to secure abolition of martial law in Pomerania and other political reforms.

Strumfeld, second in command, is reported to have fled. Strike Investigation Held At Winnipeg

Labor Men Want Robson Commission To Probe Alleged Discrimination

Winnipeg.—Little progress was made at the opening session of the royal commission to investigate the strike under Commissioner H. A. Robson at the legislative chamber. The session lasted less than one hour, the greater part of which time was given up to discussing which phase of the strike the commission would probe first, and was then adjourned.

It was practically decided that for the present the commission should occupy itself with inquiries into the effects of the strike, and not the causes, although Judge Robson also pointed out that the calling and conducting of the strike could also be gone into fully. The reasons that made for this course were, as presented by Mr. Murray, representing the trades and labor council, that many of the most important individuals who would have to give evidence are at the present time giving preliminary hearings on various charges.

Mr. Murray suggested that the question of alleged discrimination arising out of the reinstatement of the workers who had been on strike ought to come before the commission also, adding that those whom he represented felt that this question ought to be taken up at once.

Judge Robson said that the fact that men were out of work was an effect of the strike. How far the commission was to go into the causes was questionable. In his opinion, however, Mr. Murray would be well advised to prepare a list of such cases, and also notify the employees concerned so that they would have the opportunity of representing themselves. He also said that the commission would enquire into at the present time, said the commissioner, was the calling and conducting of the strike.

Repair Of War Damages

France Puts Up Millions To Aid In Work of Reparation in Countries

Paris.—Minister of Finance Klotz has introduced in the chamber of deputies a bill approving an agreement with a company called the Credit National, whereby the government would undertake the repair of war damages.

The company's capital is to be 100,000,000 francs, and it will advance to a maximum of ten years. The funds will be secured by the issue by France abroad of shares in the company, the interest on which is guaranteed by the government's budget.

Raisins Again On Warpath

Spanish Position Is Attacked By Bandits

Madrid.—The Moroccan bandit, according to an official communication, has attacked the Spanish position at El Aitah, and the fight, the bandit, realizing that the Spanish forces had cut off communications between Casablanca and Tangier, decided to attack, and the communication said it was carried on furiously. Raisins suffered heavy losses, leaving many dead or wounded on the field. The communication added that the Spaniards also lost heavily, but they are pursuing Raisins, who are fleeing into the mountainous country.

U. S. Soldier's Pay Is Small
Washington.—Popular belief in the U. S. that the U. S. soldier is higher paid than that of any other country is erroneous, according to an official table issued by the general staff. This shows the three British dominions, Canada, Australia and New Zealand, allow materially higher pay for each grade than does the U. S. For instance, the Australian army corporal earns \$72.00 per month, as compared with \$36 in the U. S. army.

Pantages to Play Fair Dates
Pantages Unequaled Vaudeville will play the entire week of Regina (Sask.). The bill has been specially selected by Mr. Alexander Pantages, and will be found an attractive attraction to out-of-town visitors who like this form of amusement. There will be three shows each day, one in the afternoon and two at night.

61 Druggists May Be Liquor Vendors
Winnipeg.—Sixty-one Manitoba druggists have been licensed to sell liquor during the coming fiscal year, against 69 last year, according to J. N. MacLean, administrator of the Temperance Act.

Co-Operative Plan Suggested

To Aid Stockmen to Get Feed to Cattle, or Cattle to Feed, as Needed

Ottawa.—To relieve the stock raisers in the dry areas of Alberta and Saskatchewan whose herds are threatened through scarcity of feed, the federal government has submitted two proposals to the provincial governments interested. It is proposed to cut hay on the Dominion lands in the north, bale it and ship it south to feed the cattle or to send the cattle from the southern areas to the hay lands of the north, where pasture has been adequate and grass is abundant.

To carry out either of these two proposals the Dominion government has prepared to the provincial authorities that the cost of securing and moving the hay and cattle be borne equally by the Dominion government, provincial governments, railway companies and stock owners.

Another proposal for division of the cost is that it be borne equally by the Dominion government, provincial governments and railway companies. This latter proposal will be adopted, as the stock owners may not be in a financial position to assume any part of the cost. The Alberta government has signified their willingness to co-operate, and it is believed will advise that the whole expense be borne by the Dominion and provincial governments and the railway companies.

Forest Fires Caused By Heat

Three Men Trapped in Tunnel of Mine in Salmon River Valley

Nelson.—Three men are trapped by forest fires in a tunnel at the Second Kildie mine, near Erie, in the Salmon River Valley. The men are known to have provisions enough to last them for four days.

According to a telephone message received here from Erie, the men are believed to be safe for the time being, although there is danger that they may be suffocated should the flames close in on the mouth of the tunnel.

Several forest fires have started in this district during the past few days as a result of the hot wave. Forest rangers say that the fires are due to the spontaneous combustion of gas given off by the heat from the resin in the trees.

Slogan City, about 25 miles from here, is surrounded by fires. Five houses have been stricken to cutting sections of the town.

"Black Watch"—The Best Black Whip Chewing Tobacco on the Market

Manitoba Taking Alberta Cattle to Market.—As a result of the present crisis in the cattle industry in Alberta, where there has been a total failure of hay and other fodder crops, leaving according to reports, approximately 150,000 head of cattle without food, the Manitoba Department of Agriculture has decided to provide between 25,000 and 30,000 head for the farmers of this province. Action by the government was announced by Hon. W. Winkler, minister of agriculture.

No Military Enters U. S.
London.—A report that Great Britain and the United States has entered into an agreement regarding their respective military establishments was denied in the House of Commons by Andrew Bonar Law, Chancellor of the Exchequer.

Winnipeg.—There will be a conference in Winnipeg July 24 to consider the situation of the harvest help for the prairie provinces.

Price of Wales' Water
London.—Rt. Hon. Walter Long announced in the Commons that the price of Wales' water to be sent to Canada on H.M.S. Renown, at Portsmouth, August 8. The price will be 10 pence per ton, thence increasing in a light cruiser to St. John, N.B., and Charlottetown, where he will re-embark on the Renown and proceed to Halifax.

Britain May Have New Political Party

U. S. Opinion And Irish Question

London.—The British government does not regard the action of the United States senate in its violation of Article 10 of the League of Nations covenant, said Andrew Bonar Law, government leader in the House of Commons.

The government, Mr. Law added, would not put the question of the future government of Ireland on the program for consideration at the next meeting of the council of the League of Nations.

Predicts Split In Labor Ranks

Domination Trades and Labor Council Will Have to Take Some Action

Winnipeg.—In the opinion of many union officials, summary action by the Dominion Trades and Labor Council is expected to follow the adoption by the local Trades and Labor Council of the Calgary convention report, amounting to full ratification of the One Big Union project. The possibility that the local council's charter will be cancelled on formation of a new council comprising unions loyal to the congress authorized, was widely discussed in labor circles.

R. A. Bigg, general organizer for the congress in Western Canada, announced that he had telegraphed the Ottawa headquarters about the action taken by the local council, and that he expected to learn what steps would be taken soon.

Mr. Bigg spoke for half an hour before the vote was taken. "It is all arranged, anyhow," he said, "and there is no chance of winning our point in the Trades and Labor Council remains its present make-up."

Partially Reduce Russian Blockade
Paris.—The council of five held a meeting, its chief topic of discussion being the Russian blockade. There have been proposals that the powers shall allow ships to enter Russian ports under special permits. It has been suggested that most of the Black Sea ports could be blockaded by the Dominions government, which is friendly to the allies, but the supreme council has not decided to ask him to do so.

Prices Drop In Germany
Profiteers, in a Panic, Flood Markets With Stocks of Food

Berlin.—Prices on all foodstuffs have fallen in Berlin as a result of the lifting of the blockade. They began to show weakness when it was rumored that the embargo would be lifted, but the real drop came only when illicit dealers with huge concealed stocks brought them out in universal panic to unload them.

Tons of provisions are being shipped in from occupied territories, while everywhere in the city German stores of coffee, corn, butter, sausage, and other supplies have made their appearance. Coffee prices fell from an average of forty marks to below twenty, and the product could easily be bought for fifteen.

Other food prices were correspondingly cut. Restaurants, however, still maintain high prices and apparently intend to continue to do so as long as possible.

Prices of Wales' Water
London.—Rt. Hon. Walter Long announced in the Commons that the price of Wales' water to be sent to Canada on H.M.S. Renown, at Portsmouth, August 8. Auckland, New Zealand.—Appreci-

Zealand troops visiting the United
States, and the camaraderie of the
hostile forces, have been the big news
of the public and dominion of New Zealand
feeling was emphasized by Lieutenant
Morton, who recently returned to
Auckland from a touring tour in
America. An official recognition was
also given by the Wellington City
Council, which sent a vote of appreci-
ation to officials at Panama and
Colon in connection with the treat-

Moving Pictures

For Equimos

Mr. Ledon Hopes to Win Their In-
terest in a Trade Scheme

New York.—Moving pictures for
Equimos are to play an important
part in an Arctic expedition which
has left here under the direction of
Christian Leitch, an accomplished
ethnologist. Mr. Ledon will show
the Equimos moving pictures of how
the white man lives, and hopes in this
way to win the interest in a trade
scheme which the expedition is ex-
pected to develop.

The expedition of four companions
sailed on an auxiliary yacht and ex-
pect to remain in the frozen north for
several months. In addition to a
large cargo of lumber with which to build
houses, the yacht carries a sundry
cargo of odds and ends for trading
purposes, in return for which the ex-
plorer hopes to obtain gold, copper
and other minerals.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make This Beauty Lotion Cheaply for
Your Face, Neck, Arms and Hands

At the cost of a small jar of ordi-
nary cold cream one can prepare a full
quarter pint of the most wonderful
beauty lotion, which will whiten and
beautify, by squeezing the juice of two
fresh lemons into a bottle contain-
ing three ounces of orchard white
cream should be used to strain the
juice through a fine cloth or lemon
pulp strainer, then this lotion will keep
for several months. If they who know
that lemon juice is used to
black and remove such blemishes as
freckles, yellowness and tan, and the
ideal skin softener, whitener and
beautifier.

Just try it! Get three ounces of
lemon juice and mix with one ounce
of cream in a quart jar of this sweetly fragrant lemon lotion, and massage it
daily into the face, neck, arms and
hands. It is marvelous to smoother
rough, red hands.

Canada Wants Big
Poultry Industry

Preaching the Gospel of Increased
Poultry Production to Canada

Montreal.—The hens of Canada, if
properly encouraged, could pay the
nation's war debt in a few years, ac-
cording to F. C. Elford, apostle of
the barnyard chicken.

The 1,000,000 farms of Canada
should have 100,000,000 hens on them,
and there should be 100,000,000 addi-
tional hens in towns and villages. At
a low estimate of ten dozen eggs from
each hen, these hens would produce
1,000,000,000 dozen eggs. If these
eggs sold at 40c a dozen, which is
below the present price, Canada's
big crop would bring in \$600,000,000
a year.

Mr. Elford is preaching the gospel
of increased poultry production to
Canada. He wants especially to get
across to the settlers who are pour-
ing in upon the land the message that
under present food conditions the
barnyard fowl lays golden eggs.
Nearly a billion chickens are raised
yearly in the U.S. In 1900 U.S.
farmers' wealth from poultry and eggs
was greater in value than the
world's output of gold or silver. In
1899 the value of all the wheat, corn,
hay, rye, buckwheat, rice, flax,
animal products, sugar cane and sugar
beets raised in the United States was
less than the revenue from chickens.

Germans Will Always Be Huns

Premier of New Zealand Has No
Faith in Regeneration

Vancouver, B.C.—"The Huns were
Huns 2,000 years ago, they are Huns
today, and they will be Huns to the
day of judgment, and perhaps after-
wards," said the Hon. W. F. Massey,
premier of New Zealand, in the course
of the regeneration of the German
people, in the course of an ad-
dress to the members of the Cana-
dian Club.

"I have no faith in the regenera-
tion of the Germans," said Mr. Mas-
sey, who further emphasized his dis-
trust of any lasting improvement in
the defeated enemy by giving it as his
opinion that German chemists would
be at work soon, if they were not al-
ready at work, devising new methods
of destruction for use when the pro-
per time arrives, which is no laughing
matter. He said that the most serious
mistake made with regard to the
question of peace, in the opinion of the
speaker, was in not dictating a victor-
ious peace on the soil of German
territory.

Channel Tunnel Project Discussed

Westminster, England.—A meeting
of members of the House of Com-
mons, held to discuss the report on
the Channel tunnel, unanimously
agreed that the project should be
left to private enterprise, but should
be executed jointly by the two na-
tions, and adopted a resolution ask-
ing for the government's support as
the best proof of Great Britain's de-
sire to maintain and improve her
friendship and alliance with France.
A deputation was appointed to ap-
proach the Prime Minister.

Britain's Progress In Food Production

Farmers Did Much to Turn Scale
Against Submarines

London, Eng.—Prof. Frederick
Reckle at the Royal Institution re-
cently delivered the first of two lec-
tures on "Intensive Cultivation,"
in the course of which he gave an
interesting survey of the remarkable
increase in food production in Great
Britain during the period of the war.
Farmers, he said, did much to turn
the scale against the submarines, and
during the later stages of the conflict
the allotment holders accomplished
positive wonders.

In contrast between the German
people and the British was furnished
by the fact that before and during
the first year of the war the Germans
were producing some 42,000 tons of
potatoes, which they regarded as the
best vegetable food, against 7,000 tons
produced in Great Britain. In 1915,
however, the Germans sold their bulk
and their production rapidly fell until
there was an utter collapse, whereas
Great Britain's steady and deter-
mined effort rose to a remarkable
extent. It had been a mistake to
decrease the acreage available for the
cultivation of soil fruit, but the peo-
ple had now learned that fruit and
vegetables were as important factors
of food almost as corn and meat.

The men who had worked under
such disadvantages and with such
conspicuous success to increase their
food supplies had earned, in his
opinion, the gratitude of the nation.
Reckle said that the general advantage
of the present situation was that there
was the utmost desire to grow things,
and this was going to prove a difficult question and would
have to be dealt with in a statesman-
like manner.

Most important had been the pro-
duction of food by the army itself.
The army had achieved notable re-
sults in France, Italy, and in the
Balkans, and their work in the
past showed that the army did carry
out what it undertook to do. In his
opinion, there was now a distinct op-
portunity for profitable cultivation in
Great Britain.

This is to certify that fourteen years
ago I got the cords of my left wrist
cut off for about nine months that I
had no use of my hand and tried other
remedies, but to no avail. I was per-
suaded from a friend I got MIN-
NARD'S LINIMENT and used it for
about a week, and my wrist was
LIMBERED in my family ever since
and find it the same as when I first
used it. I am, Sir, your obedient ser-
vant,

Farming

The Saskatchewan Department of
Agriculture, with a view to encourag-
ing mixed farming, will supply farm-
ers with breeding stock at first
cost. There was an utter collapse of
24 pure-bred bulls, including Short-
horns, Herefords, Polled Herefords
and Aberdeen Angus. Not a few
farmers are starting to raise beef cat-
tle, engaging in dairying or starting
with small flocks of sheep, and it is
the intention of encouraging the
livestock branch is making the
above offer. As orders come in,
more sires will be purchased, and
Ayrshires and Holsteins sires will also
be secured for dairy farmers. These
sires are sold for cash or on easy
terms. Last year 125 were sold
through the department, and this year
it is expected that between 150 and
175 will be sold.

Britain Rules

Britannia Rules the Air as Well as
the Waves

The New York Tribune points out
that in 1914 Germany was first,
France was second, Italy was fourth
and the United States was last in the
production of aircraft, as shown by
the amount of money each was will-
ing to spend on that arm of prepared-
ness. When the armistice was signed
on November 11, 1918, the per-
sonnel of the military air force in
each of these countries was as fol-
lows:

War Facts And Figures

Some Details Of Intensity Of
British Army Operations

There are some of the amazing
figures in Sir Douglas Haig's last de-
spatch:

General Headquarters received
10 telegrams in one day, and 3,400
letters by dispatch-riders. One
army headquarters had 10,000 tele-
grams in a day, and the daily tele-
grams on the lines of communication
were 23,000.

There were 1,500 lines of telegraph
and telephones, and 3,658 miles of
railways, on which 1,800 trains ran
weekly.

In six weeks 5,000,000 rations were
supplied. Our armies in France
to 800,000 tons in the relieved areas
and stores were required daily for
the maintenance of each division.
